OBJECTIVE

Highly motivated individual looking for an opportunity to be a part of Adobe's Software Engineer Internship. I bring a strong foundation in problem-solving and a commitment to continuous learning. My self-taught nature equips me with the adaptability and determination necessary to quickly acquire the tools needed to perform for this role. I am eager to leverage my skills and passion for technology to contribute effectively to this company.

PROJECTS

Vintage Apparel | *React, React-Router, Styled Components, Firebase*
- Implemented a responsive and intuitive user interface for an e-commerce platform using React, ensuring seamless navigation and an engaging shopping experience.
- Utilized React Router to implement efficient client-side routing, enhancing the application's performance and providing a smooth, single-page application feel.
- Integrated Firebase authentication to secure user accounts, enabling robust login functionalities and ensuring a secure and personalized experience for customers.

Face Rec | *React, Tachyons, Node.js, Express, Knex.js, Bcrypt, Postgres*
- Developed a cutting-edge face recognition app using React, seamlessly integrating Clarifai's API to enable users to upload photos and accurately detect faces with precision and speed.
- Integrated user authentication features, allowing users to sign up for accounts securely and efficiently, while employing bcrypt for password hashing to enhance data security and protect user credentials.

TechPro Autoglass | *HTML, Sass, JavaScript*
- Crafted a visually appealing and responsive landing page using HTML, SCSS, and JavaScript, ensuring a seamless user experience across various devices and screen sizes.
- Incorporated intuitive navigation elements and a clear call-to-action, directing visitors to easily access business contact information. Included strategically placed links for direct communication via email or phone, as well as seamless connectivity through prominent social media channels.

CERTIFICATIONS

AWS Cloud Practitioner certified

Currently working on Comptia Network+ and AWS Solutions Architect

EDUCATION

Western Governors University   Salt Lake City, UT
B.S. Software Engineering   *Current*

Kapolei High School   Kapolei, HI
HS Diploma   *Jun. 2002 – Jul. 2006*
